James Morcan, Lance Morcan : DEBUNKING HOLOCAUST DENIAL THEORIES: Two Non-Jews Affirm the Historicity of the Nazi Genocide before purchasing it in order to gauge whether or not it would be worth my time, and all praised DEBUNKING HOLOCAUST DENIAL THEORIES: Two Non-Jews Affirm the Historicity of the

Nazi Genocide:

1 of 1 people found the following review helpful. I felt the authors did a wonderful job of presenting their evidence against the "deniers" By weebiscuit People who deny the Holocaust are simply anti-semitic, racial hatemongers. After reading this book we happened to be in Washington DC and went to the Holocaust museum. I had previously read another book about an extermination camp called, "Escape from Sobibor" so "Debunking Holocaust Denial Theories" grabbed my interest right away. With the overwhelming REAL evidence of what happened to the Jews, it is beyond the ken of understanding that people actually deny this event took place. I felt the authors did a wonderful job of presenting their evidence against the "deniers." Very well-written book, and I strongly recommend it. 2 of 3 people found the following review helpful. Horrid Truths By Willy Wonka Diabolical. Sinister. Hellish Nightmare. Facts in this book are at times beyond belief, but facts are facts. Truth. 2 of 5 people found the following review helpful. this book debunks that view the best way yet By Joseph This is an important work by an experienced new age father and son team of writers who saw truth being denied, and decided to check the facts. I found heaps of arms-of-length backup archives, calculations and charts that verify the book's statements, and new logical conclusions of enlightenment. One highlight is the Middle-East P.A. President Abbas' book and thesis that skirts its denial with its exaggeration theme of the 6 Million; this book debunks that view the best way yet. Its one for the library that can be referred to periodically. Its a great cover and title, needs no further embellishment, very gracefully undertaken. Joseph Shellim, Author of "Philistine-To-Palestine: Exposing The World's Biggest Deception"

DEBUNKING HOLOCAUST DENIAL THEORIES: Two Non-Jews Affirm the Historicity of the Nazi Genocide, by independent researchers and filmmakers James Morcan and Lance Morcan with a foreword by Holocaust survivor Hetty E. Verolme (author of *The Children's House of Belsen*), aims to end the denial once and for all by tackling the bizarre phenomenon head-on. Written in close consultation with Holocaust survivors and World War Two historians, no stone is left unturned in meticulously verifying the historical facts of the genocide. The Morcans present a wide array of sources including Nazi documentation, eyewitness accounts, scientific reports and shocking photographic evidence to shut down the debate deniers wish to create. One by one, the various arguments Holocaust deniers use to try to discredit wartime records are carefully scrutinized and then systematically disproven. Theories debunked include: the six million death toll figure being an exaggeration; gas chamber exterminations being fictitious; Adolf Hitler and the Third Reich being wrongly vilified; the analysis of Holocaust records being a taboo due to specific laws in Europe criminalizing deniers; "Evil Zionists" and Israel being so powerful that they can censor history. The Holocaust is shown in this book's pages to be one of the most well-documented and most historically and forensically-proven crimes of the 20th Century. In the process, many of the world's most infamous deniers, including disgraced British historian David Irving and the former President of Iran Mahmoud Ahmadinejad, are revealed to be nothing but anti-Semites seeking to further denigrate, undermine and demoralize the world's Jewish population. In this enlightening read that covers more than two millennia of global history, anti-Semitism is shown not only to be the root cause of every form of Holocaust denial, but also the reason for the relentless persecution of the Jews since Biblical times. The authors quote verbatim the often sickening and always baseless comments of kings, emperors, politicians, popes, bishops and muftis about the Jews and why they chose to commit numerous genocides against them over the centuries. These historical quotes prove eerily similar to the vicious anti-Semitic statements made by Holocaust deniers of this era... If you wish to learn more about WW2 and the Nazi extermination camps, if you are confused by all the convoluted conspiracy theories circulating on the Internet about the Holocaust, or if you are currently a denier yourself, then **DEBUNKING HOLOCAUST DENIAL THEORIES** is a must read.

"First-rate contribution to an important topic. This book is the result of prodigious research. I recommend to everyone who has an open mind and wishes to learn more."
