From International Monetary Fund : Direction of Trade Statistics Yearbook: 2016 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Direction of Trade Statistics Yearbook: 2016:

Seven years of data for approximately 184 countries and two sets of world and area summaries; world and area trade as seen by the reporting countries and by the partner countries to those transactions. Three sections--World and Area Tables, Memorandum Tables, and Country Tables--constitute the framework for the data. The latter show current information on the value of imports from and exports to their most important trading partners. Similar summary tables are presented for the world, industrial countries, and developing countries. A list of country and area codes is an

additional feature. Text is in English, French, and Spanish.
