**Mark Wyman : DPs: Europe's Displaced Persons, 194551** before purchasing it in order to gauge whether or not it would be worth my time, and all praised DPs: Europe's Displaced Persons, 194551:

0 of 0 people found the following review helpful. Five Stars By E. Asarkof I bought the book for a class. For health reason, I had to drop the course. I enjoyed the story so much that I finished it on my own. I never knew how difficult it was for the DPs. I couldn't put the book down. 2 of 2 people found the following review helpful. Outstanding book on subject....well researched By Al Strauts As a former DP in the Latvian camp in Ingostadt Gr, I found this book accurate

and very interesting..I immigrated to States in 1950...mother And 3 small children..I was oldest 11 yrs old.Am a patriot of USA. This reminded me how lucky I was to to make it to America..4 of 4 people found the following review helpful. Excellent book on a forgotten topicBy Robert VitasI recommend this book to those interested in World War II, ethnic history, and refugee issues. Most Americans are not aware of this particular group of immigrants, what they experienced during and after the war. When Americans were returning to the US after Germany's defeat, the DPs were still in the war for another five to six years. This also reveals the tragedy of the US alliance with the Soviet Union, which these people were fleeing from.

"Wyman has written a highly readable account of the movement of diverse ethnic and cultural groups of Europe's displaced persons, 1945-1951. An analysis of the social, economic, and political circumstances within which relocation, resettlement, and repatriation of millions of people occurred, this study is equally a study in diplomacy, in international relations, and in social history. . . . A vivid and compassionate recreation of the events and circumstances within which displaced persons found themselves, of the strategies and means by which people survived or did not, and an account of the major powers in response to an unprecedented human crisis mark this as an important book."Choice

"This is a fascinating and very moving book."International Migration "Wyman interviewed some eighty DPs as well as employees of various agencies who served them; he cites a broad range of published primary sources, secondary sources, and some archival material. . . . This book presents a useful overview and should stimulate further research."Journal of American Ethnic History "Mark Wyman's book is the only one that comprehensively, and sensitively, depicts the plight of the postwar refugees in Western Europe."M. Mark Stolarik, University of Ottawa
