The Spanish edition is beautifully written and its valuable as a source of Spanish language terminology for Buddhist technical language. The translator does a great job and obviously is knowledgeable in both Buddhist philosophy and language. I highly recommend this book because its both instructive and easy reading. Its valuable as a reference and you cannot get tired of going back to it and slowly but surely discovering that with each rereading more and more is discovered!

Rather than offering a superficial overview to the philosophies of Buddhism, this reference focuses on the history and theology that underpin its major tenets. Moving across millennia as well as nations, the study investigates key principles and traditionsincluding the monastic life, Tantra, and pilgrimageand describes their origins and modern manifestations. Various anecdotes are provided throughout the text in order to illustrate important doctrines. Ms que ofrecer un resumen superficial de la filosofia del budismo, esta referencia se centra en la historia y la teologia que contienen sus principios ms importantes. Abarcando milenios y naciones, el estudio investiga los principios y tradiciones clavesincluyendo la vida monstica, el Tantra y el peregrinaje describe sus orgenes y su repercusin en la vida actual. A lo largo del texto se explican varias ancdotas para demostrar la importancia de las doctrinas.
