**Luis Miguel Martínez Otero, Luis Miguel Marnney Otero : El Priorato De Sion (Spanish Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised El Priorato De Sion (Spanish Edition):

2 of 3 people found the following review helpful. Mmmmmmm...By Enki After reading Holy Blood, Holy Grail, this book looks like a kid's attempt to explain something but not knowing exactly what he must explain. Too much of personal belief are embedded here, personal attacks to whatever doesn't agree with the writer are everywhere in this book. The book cannot be taken seriously due to the nature in which his author wrote it. 26 of 32 people found the following review helpful. Great Disappointment By V. Donaire I had the greatest expectations about reading the book,

but it's really a complete disappointment. Conclusions are so obvious that can be done at the first pages- The Sion Priorate it's an invention of Mr. Placard-. If you're looking for something in the Da Vinci Code line, DON'T buy this book, it's a waste of money.

A daring study that uncovers the real nature of the Priory of Zion, one of the secret societies that is still alive nowadays and that dominated medieval politics from behind. Given the numerous absurdities which have been written lately about this society, the author reveals the other secret reality of this Priory. Its alleged Templar heritage the secret archives, the gnosis ( a Church of John, superior to Peter's) and the claim for P.Plantard, of arguable blood lineage.
