**From Macmillan Library Reference USA : Encyclopedia of the Holocaust** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Encyclopedia of the Holocaust:

0 of 0 people found the following review helpful. There may never be a definitive reference point, other ...By Young Mind  
There may never be a definitive reference point, other than YadVashem, but the work that has emanated from it has been an invaluable instrument in accessing the information required to make a sustained judgement.  
1 of 1 people found the following review helpful. Excellent reference  
By Erwin Seba  
This is an essential and excellent reference work offering detailed information about the Holocaust, its causes, process and impact on the victims.  
2 of 16 people found the following review helpful. Too many errors and omissions for an "encyclopedia"  
By A Customer  
It's hard to believe that so many words could be published on this subject under the guise of an "encyclopedia" - yet omit facts and historical data that are essential to the story.  
Accuracy and thoroughness is essential when writing about the Holocaust - or any historical event. Otherwise the writing becomes fodder for those that deny it ever happened.  
I would not rely on this for research. But, it's not bad reading - if you keep that in mind.

Excellent condition, ex library. Two books containing 4 volumes, totaling 1905 pages. Black cloth with red background to silver lettering on cover and spine. A beautiful set!
