**From Deutscher Kunstverlag : Endtime Warriors: Ideology and Terror of the SS (Kreismuseum Wewelsburg)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Endtime Warriors: Ideology and Terror of the SS (Kreismuseum Wewelsburg):

Also, while it has many interesting photos (bw and color) of artifacts they are all very small - the vast majority are only "thumbnail" or passport-photo size. That said, the information about the artifacts in the exhibition is interesting (though not very detailed). I do not think the book is worth the price. If you can get it used, at a substantial discount, it might be worth getting.

Ideology and Terror of the SS, the Kreismuseum Wewelsburgs permanent exhibition, is dedicated to a site of the

perpetrators and victims of National Socialism. The exhibit courageously links the ideological endeavors of the SS with their criminal consequences and displays objects from the social environment of the perpetrators and artifacts from the concentration camp with a wealth of museum materials unusual for this subject matter. Set against the background of its explosive historical context and featuring hundreds of photos of the exhibit, Endtime Warriors shares the importance of this show with an international audience.

About the Author Wulff Eberhard Brebeck (1946-2011) was the director of the Kreismuseum Wewelsburg, which he headed for more than 30 years.
