the book gives a striking view on our culture and how we have strayed from God in this country in many different ways and nobody is waking up to it

Eradicate identifies two major problems causing the spiritual and moral decline in our country: the secular agenda to blot out God, and the apathy of Christians. This book will expose the anti-Christian movements in America and give you a thorough understanding of the foundational battle for truth. With 78% of Americans claiming to be Christians, how did it get to the point where Christianity is having less of an influence on our culture than culture is having on Christianity? Too many believers have conformed to our culture and were now suffering the consequences as a nation. Enemy forces continue to destroy this nation by attacking America's Judeo-Christian roots from within. This book will investigate government, media, Hollywood, public schools, our culture of death, and the push toward socialism and Marxism. You'll see how some churches and leaders are diluting the Word of God weakening the witness of believers. You may be outraged as this book exposes how sin is being openly promoted, yet encouraged because God is still in control. There's a remnant of committed Christians resisting evil and standing in the way. The choice is ours: who or what will we give our allegiance to, God or man; to Jesus Christ or to culture and politics? As Christians, our loyalties must not be divided any longer or America may be lost.

This book is very well researched with a lot of quotes from key historical figures so you can hear people in their own words. Once you pick it up you will have a hard time putting it down. Prepare to be appalled at how far we've moved as a nation away from the vision of our founding fathers the Constitution. This book is a very eye opening book about America's fall. It is astonishing to see the corruption in our society from where we were just a decade or two ago. This book covers a wide variety of areas where our culture has allowed sin to blind us to the negative changes that are happening right before our eyes. It is a must read for anyone wanting to see where our society is headed and be reminded about where we came from. Our decline in morality hasn't been overnight, but our country has been in steady decline for years. it's an eye-opener.
