**Bat Ye'or : Europe, Globalization, and the Coming of the Universal Caliphate** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Europe, Globalization, and the Coming of the Universal Caliphate:

Marten Such a treasure trove of information on Islam perfidies, European Union suicidal concessions, Israel disparagement, this author concisely explains so much, so clearly; she answers a lot of nagging questions I have had. Ayaan Hirsi Ali in "Heretic" clearly defines the 5 specific beliefs in the Quran that do not belong in a civilized society, sharia law and

jihad are two of those. Bat Ye'or here shows how Europe is ignoring the huge deficiencies of Islam, why they do it and why it will be at their peril. She explains that the Quran demands worldwide conversion, the whole world is Muslim property (from Allah) only temporarily occupied by non-believers, terrorism only applies to Muslim on Muslim--jihad is required against infidels. Muslims ignore centuries of their atrocities over three continents and blame Western colonialists for creating unrest. She completely clarified how Israel gets so much blame for trying to defend itself, why Palestine and its' terrorists gets so much support from the EU. She explains why Arabs (Muslims, really) hate Israel: Islam was Judaism until Mohammed and even until The Crusades, they believe the OT is theirs (incredible) and want to eliminate Jews to get it back. Even though the OT was written a thousand years before the Quran, the Bible names places all over the Middle East and the Quran has NO mention of any location, especially Palestine. The main goal of the book is calling out European apologists and short-sighted politicians who are jealous of US influence in the world, they are committing suicide to kowtow to Islamists. Europeans are trying to create a perfect society, they need to realize that sharia law will never fit into that concept, Islam will never give up sharia and jihad, it is demanded by "Allah". The current conditions in Europe are going to prove her correct, hundreds of thousands of refugees crossing unprotected borders is the result of accommodating the perfidy of Islam. The "chickens are truly coming home to roost", as Reverend Wright, Obama's bomb-throwing minister says. 8 of 8 people found the following review helpful. Bat Ye'or Shines a Light on Massive Evil By Dennis Bat Ye'or is one of the last generation of Jews who were born in Egypt before her community was extinguished by Muslim anti-Semites. Now she is forced to witness this same anti-Christian anti-Jewish Islamic radicalism overrun Europe with the support of Europe's leaders themselves. The average European citizen who still values his/her own Judeo-Christian culture has never consented to the Islamization of Europe but what the average citizen wants does not matter to the plotters who think that Islam offers them more power and more money than does traditional Western Civilization. Sharia law which will reduce all non-Muslims to helpless dhimmis and will subjugate women is already beginning to replace traditional Western values like freedom of speech and freedom of religion. 2 of 2 people found the following review helpful. Avoid the book/subject at your own peril By Prince I would say that this title might be the only one out there that tries to explain almost at a scholarly level the "not so easy" developments in Europe and the West in the last 3-4 decades. Bat Ye'or presents a robust material that has its underpinning in theological, historical, social and political events/facts that explains in a way the "madness" that has taken over the Western Hemisphere. To quote Bat Ye'or : How did Christian peoples and states, some with powerful armies and the richest cultures of their times, collapse when faced with the onslaught of jihad and dhimmitude from the seventh to the fifteenth centuries? Now I no longer ask myself this question. The breakdown process that I used to study and documented in old chronicles I have seen taking place in today's Europe..... Keeping Christian officials in their positions maintained a semblance of continuity. Behind their foggy screen, Islamization could penetrate within every stratum of the vanquished societies. End Quote

The scope and the theme of the book is to analyze the modern political trends and strategies that are leading to major changes in Western civilization, America included, since the OIC strategy targets America also. Learning from the European experience is crucial for Americans. Moreover this evolution is inscribed in the historical movement of Islamic theology and expansionism. It is not fortuitous but it has its own theological and political structure that must be known in the West if we wish to live in a peaceful world.

Praise for Eurabia: [No] book explains the European Muslim situation more ably than Eurabia: The Euro-Arab Axis... It's hard to overstate this book's importance... Eurabia is eye-opening and required reading for anyone seriously interested in understanding Europe's current predicament and its probably fate. (Bruce Bawer Hudson, Winter 2006) Praise for Bat Ye'or: "Bat Ye'or has traced a nearly secret history of Europe over the past thirty years, convincingly showing how the Euro-Arab dialogue has blossomed from a minor discussion group into the engine for the continent's Islamization. In delineating this phenomenon, she also provides the intellectual resources with which to resist it. Will her message be listened to?" Daniel Pipes "No writer has done more than Bat Ye'or to draw attention to the menacing character of Islamic extremism. Future historians will one day regard her coinage of the term 'Eurabia' as prophetic. Those who wish to live in a free society must be eternally vigilant. Bat Ye'or's vigilance is unrivalled." Niall Ferguson "Ordinary people who are still in the dark about the way the Euro-Arab Dialogue is refashioning their lives may one day rebel, in which case Bat Ye'or and this book will seem prophetic. Or they may sink helplessly into dhimmitude, in which case Bat Ye'or will be ignored and her book unobtainable. Either way, she is a Cassandra, a brave and far-sighted spirit." David Pryce-Jones About the Author Bat Ye'or was born in Cairo. Her first major study (Le Dhimmi, 1980) was translated into English (1985), Hebrew (1986), and Russian (1986). It is an essential introduction to The Decline of Eastern Christianity under Islam. From Jihad to Dhimmitude (1996), whose publication in French (1991) established the author's reputation as a pioneer researcher on "dhimmitude." Islam and Dhimmitude: Where Civilizations Collide (2001) opened-up new ground, and her latest analysis of the transformation of Europe into "Eurabia" was hailed as prophetic. Eurabia: The Euro-Arab Axis (2005) has been printed nine times and has been

published in French, Italian, Dutch, and Hebrew.
