**Laurie Schneider Adams : Exploring the Humanities: Creativity and Culture in the West (Combined Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Exploring the Humanities: Creativity and Culture in the West (Combined Edition):

0 of 0 people found the following review helpful. etc" however I was happily surprised to see that it was not as bad ...By Patriot FanThis book was described as "used, acceptable, very beaten up, etc" however I was happily surprised to see that it was not as bad as described. A few underlined words, which I don't mind, and I put 2 small pieces of tape on the binding, (it's a large paperback textbook, so I expected the binding to be a little torn)... For \$5 and \$3.99 shipping, I am very happy! Thank you very much.0 of 0 people found the following review helpful. Nice picturesBy Caleb CarlsonGood book. Lots of neat illustrations, and speculations on early civilizations. Unfortunately I did not end up needing this book for my Humanities class, but having it on my coffee table makes me look smarter haha.0 of 0 people

found the following review helpful. Excellent Text!By CustomerEach chapter brings the history of the humanities alive. Very easy to follow.

Introduction to the Humanities, Combined Edition provides a comprehensive, color and illustration-filled compilation of the history of civilization. Volume One encompasses the development of art, culture, society, architecture and religion beginning with prehistory and the ancient Near East and progressing through the Renaissance periods. Volume Two examines humanity and its components from the reformation and reform in sixteenth-century Europe through to present day society. The volumes provide extensive social and cultural background material reinforced with fascinating information on key persons, events, ideas and inventions of the time period to provides readers with a you are there experience. Cross-Cultural Influence features highlight influences exchanged between different cultures to give readers a look at contact and artistic exchanges between cultures. Thematic Parallels sections compare universal themes over different time periods and in different places across the world, providing readers with an extensive and fascinating look at humanity through the ages. Introduction to the Humanities, Combined Edition examines the following time periods: prehistory; the ancient near east; ancient Egypt; the Aegean world; the emergence of historical Greece; ancient Greececlassical to Hellenistic; ancient Rome; pagan cults, Judaism, and the rise of Christianity; the Byzantine Empire and the development of Islam; the early Middle Ages and the development of Romanesque; the development and expansion of gothic; the transition from gothic to early renaissance; the early renaissance in Italy and northern Europe and the high renaissance in Italy and early mannerism; the reformation and reform in sixteenth-century Europe; Absolutism and Baroque; from enlightenment to revolution in the 18th century; the early nineteenth century and the romantic movement; nineteenth-century realism; industry, and social change; the late nineteenth century; turn of the century to World War I; World War I through World War II; 1945 to 1989 the cold war to dtente; and after 1989. For those interested in a comprehensive view of humanities throughout the ages.
