By diego gonzalez This interview is astounding!!! The renowned liberation theologian engages Fidel in a candid conversation that highlights the humanistic qualities of this misunderstood statesman. The whole irony of the interview is that through action and not religious dogma, Fidel had given the ordinary Cubans both spiritual and material wellness as can be seen in the universal healthcare and education, among other things. Fidel is in essence a bona fide Christian given his instinct to help the poor and oppressed in the pre-revolutionary Cuba. Wasn't Jesus the first real Communist??? This startling book is based on conversations between the Cuban leader and a Brazilian priest. The talk is informal and far-ranging, and Betto's questions are often provocative (Does Cuba export revolution?). Publishers Weekly  
The product of an intimate 23-hour dialogue between Fidel Castro and Brazilian liberation theologian Frei Betto, this was a Simon Schuster bestseller in the 1980s. Here Castro speaks candidly about his views on religion and his education in elite Catholic colleges, offering an insight into the man behind the beard. Features a new translation and a unique selection of photos of Fidel as a boy.

About the Author Fidel Castro led a guerrilla movement in Cuba that overthrew the Batista dictatorship in 1959. Since then, the Cuban president has been the nemesis of ten U.S. administrations. He stepped down in 2007 but has regularly expressed his views on world events and political personalities in his famous "reflections." Frei Betto is a Brazilian priest, who worked with the internationally renowned Brazilian educator, Paulo Freire, and later organized Christian base communities. Recently he has been an adviser to the Lula government in Brazil on social policy. He is a widely acclaimed liberation theologian and a prominent spokesperson at the World Social Forum on globalization issues. Armando Hart was an underground activist in the struggle against the Batista dictatorship in Cuba. He was named as minister of education in the revolutionary government and led the nationwide literacy campaign. Later (1976-97) he became minister of culture. He is the author of numerous essays, articles and books on culture and cultural policy, history and social development
