Out of Africa, not AustraliaBy Mugisa Rathael FambroThis book has partial truths, which make it false. The original human, or homo sapiens sapiens, through genetics, linguistics, archaeology, etc., is originated from Africa. The Black Africoid Australian Aboriginie morphological type, is found in Africa, India, and Australia, today, in the purest state. There were many "Black

Africoid types of man", the so called aboriginie that migrated to Australia, being one of the earliest types. The reason Ancient Egyptian, or better yet, Kemetic hieroglyphics, artefacts are found in Australia, is because the Black Africoid Australoids, carried that high culture "out of Africa" with them 70,000 years ago. Ancient Kemetic culture is older than that. This is being proven daily. All the original Africoids come from Sirius and Pleiadian star systems, The San, Zulu, Dogon, Bambara, all from Africa, state these origins in their earliest philosophies. The dreamtime is the same as ZepTepi, or the first time, in ancient Kemet. Biamie, is the same as Ra/Ausar, hermaphroditic, and all encompassing. Children were born, at a time before men were on earth, only Gods were here then. I should not be revealing all this to you, but you all must be put on the correct path. The Reptillians and Greys have no influence or power here. This "free will" zone, is totally according to your "will". They can't do anything not allowed. Have no fears!!!! The enemies of Ra, Biamie, Auar/Auset, Heru, have no powers on this planet!!!!!! The original Black Africoids are in control, in all their variation. There is only one "African Race". All so called others, are variations of the original, and later genetic mixing. The powers that be try to confuse with racism, etc., but they will never win. Science/Spirituality, proves all!!!!!! A Light In The Dark/Rathael

Forgotten Origin is the third in a series of books dedicated to the first Homo sapiens: the Australian Aboriginal people. Steven Strong and Evan Strong continue in their investigation into the global impact of Aboriginal people sailing from, never to, Australia no less than 50,000 years ago, paying particular attention to the shared principles found within many Gnostic scriptures and the Dreaming. As radical as this theory may appear, the rigor applied, whether through mtDNA, Y Chromosomes, skull morphology or historical accounts, and the religious ancestry upon which this hidden history is founded, demands serious consideration. This is not their story. Steven Strong and Evan Strong make no claim to speak on behalf of anyone. They do, however, have the right to relay that which Aboriginal culture-custodians insist is true. The First Australians are unique, and in no way descended from Africans or any other race. Forgotten Origin is merely another reminder of this hidden truth.

Tremendous to see these issues being opened up - it is extremely stimulating to hear about these ideas (Howie Firth, patron of the International Festival of Philosophy, Science, and Theology) your work is the beginning of an important discussion. (Pamela Wells) We don't come from African people, we are not related to them at all. (Burri, aboriginal Culture Custodian) About the Author Steven Strong is a secondary school teacher with a background in archaeology and education.
