Thank you Rebecca for revealing your inner pain and experiencesBy Malcolm D GeffonVery powerful story of endurance of body and mind even when at times one doesn't want to continue to live. A tragic yet compelling true story different from other Holocaust literature.The poetry is beautiful, yet sad,rich with feeling and honesty.0 of 0 people found the following review helpful. gripping story! A must read! 0 of 1 people found the following review helpful. A Must Read By Lynda Kinard Very informative and well written. Kudos to the author for sharing the issues she has experienced in her life directly related to what she endured during the Holocaust. Will recommend this book to students of the Holocaust and friends wishing to become more informed.

Living among corpses a death train destined for the Elbe River bodies covered with lice the murder of almost all close relatives life in the Netherlands before, during, and after the Holocaust is perceptively written by Rebecca Siegel. She not only describes her experiences, but also delves into the effects of that period in time on children, grandchildren and mainly herself. The book touches on her years in the Montessori School in the same class with Anne Frank and her survival in the same concentration camp where Anne died. Interspersed with the prose and at the end of the book are Rebeccas poems which she wrote not long after the war and which are relative to her narrative. This book is highly recommended reading for adults as well as teens, giving a deeper understanding of that horrendous time period and its after-effects.
