I am a little picky about layout and was happy to see that this planner didn't compromise on space in exchange for beauty. There is a 2-year (2017-2018) view spread out on two

pages. The holidays are easy to spot in each year view as the day of the month which they fall on is in bold and are listed out under the applicable month. Following the 2-year view is the lunar cycle for 2017. After the 2-year view and lunar cycle the day planner begins jumping right into a week view. The week view has two days per page with a spot at the beginning and end of each week for notes. Throughout the week, there are quotes from Paulo Coelho's books and doodles by Catalina Estrada. The drawings by Catalina Estrada are stunning! The colors are bright and vibrant and create a theme for each month. The paper is of higher quality and has a slight sheen/gloss. This might cause some smearing with gel pens if they are touched before completely dry. I use regular ball point pens so smearing isn't a problem for me. To help keep track of your place, there is also an attached ribbon/bookmark to hold your place. I am excited to start my journey through the new year with Paulo Coelho's quotes to inspire the best in me. 0 of 0 people found the following review helpful. Well made, beautiful planner with a lot of room to write on each, individual day! By Sherrybaby This is the 2nd year I have purchased a Paulo planner. The planner is well-made and I like the connected "bookmark". I MUST have a planner that gives me enough room to write details on each day. This planner has TWO days on each page. There is plenty of room to write a lot of information for each, individual day. I have read all of Paulo's books but sometimes I don't have time to read as much as I want--so this planner gives me at least one Paulo quote a day to enrich and inspire me! Suggestion for next year--instead of a "flap" to hold loose papers on the front and back covers I'd like to see a pocket that holds without much chance of them falling out. I put a piece of clear tape on the top of the flaps to make a pocket so it's not a deal-breaker. Since I take this with me everywhere sometimes I need to have a place to put appointment cards or other loose, small paper items. 1 of 1 people found the following review helpful. Beautiful, glossy and bold pages. By Mixknickknacks Beautiful planner! I have gifted these planners to the teachers of my kids and at least I knew they were appreciated. The planner itself is beautiful and a tad heavy due to usage of glossy (lightly laminated?) illustrations and thick paper for the calendars. The colors are bold and pleasing to the eyes. Great for gifting or personal use.
