Ned C. Landsman : From Colonials to Provincials : American Thought and Culture, 1680-1760 (Cornell Paperbacks) before purchasing it in order to gage whether or not it would be worth my time, and all praised From Colonials to Provincials : American Thought and Culture, 1680-1760 (Cornell Paperbacks):

0 of 0 people found the following review helpful. Five StarsBy WalkerVery helpful for my research. Insightful.

"This volume provides a succinct, analytical, well-conceived, and nicely written account of the development of colonial North American thought and culture from 1680 to the eve of the American Revolution. Not an anachronistic search for the origins of later American cultural forms, it situates the subject firmly within a transatlantic context. The author emphasizes the extent to which improving communications and expanding connections helped to incorporate colonial settlers into a larger British world by providing them access and inviting them to become contributors to a burgeoning public culture of print, which consisted of newspapers, magazines, books, and letters. Whereas during the first seven decades of the seventeenth century, the colonies had been little more than crude and isolated outposts of English culture, from the late seventeenth century, he contends, they increasingly became like Scotland and Protestant Ireland, intellectual and cultural provinces of an expanding British Empire." Jack P. Greene, *Journal of American History*

"This book forms a marvelous introduction to the transatlantic interplay of enlightenment culture and Protestant piety that Scots did so much to foster in English-speaking America. Highly recommended for American history surveys." Richard B. Sher, *Eighteenth-Century Scotland* (Spring 1998) "A work that is easily the fullest and most intelligent survey of colonial culture available. . . From *Colonials to Provincials* covers an impressive range of people, groups, and movements. The notes almost invariably point readers to the most important scholarship." Steven C. Bullock, *William and Mary Quarterly*, (April 2002) "Ned Landsman's *From Colonials to Provincials* is both comprehensive and succinct, the best synthesis we have of colonial thought and culture for the three generations preceding the Revolution." John Murrin, Princeton University
