From Lumbini International Research Institute : From Turfan to Ajanta: Festschrift for Dieter Schlingloff on the Occasion of his Eightieth Birthday (English and German Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised From Turfan to Ajanta: Festschrift for Dieter Schlingloff on the Occasion of his Eightieth Birthday (English and German Edition):

The dedicated study of South Asia, its classical culture in all its myriad forms, including its literature and religion and

not least, its art, has distinguished the entire scholarly life of Dieter Schlingloff. With his vast panoply of interests and his insatiable curiosity, well reflected by his publications, both in their impressive number and their diversity, he has enriched the field of South Asian Studies to a momentous degree. This work is a Festschrift on the occasion of his 80th birthday.
