Charles S. Sydnor : Gentlemen Freeholders: Political Practices in Washington's Virginia (Published by the Omohundro Institute of Early American History and Culture and the University of North Carolina Press)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gentlemen Freeholders: Political Practices in Washington's Virginia (Published by the Omohundro Institute of Early American History and Culture and the University of North Carolina Press):

Here is a vivid picture of late eighteenth-century Virginia's keen and often hot-tempered local politics. Sydnor has filled his book with the lively details of campaign practices, the drama of election day, the workings of the county oligarchies, and the practical politics of that training school for statesmen, the Virginia House of Burgesses. Originally published in 1952. (This book was also published under the title *American Revolutionaries in the Making* in 1965.)
