Washington Irving : George Washington: A Biography before purchasing it in order to gage whether or not it would be worth my time, and all praised George Washington: A Biography:

0 of 0 people found the following review helpful. Five StarsBy walter furrFabulous autobiography by America's first

professional writer/author1 of 1 people found the following review helpful. A great read by a great authorBy Joan C. Written by Washington Irving in circa 1858. He retells the story of this country's first president as it has never been told before. Drawing on first hand accounts and interviews of sources who knew Washington, Irving does a masterful job of bringing the man to life and detailing the sobering circumstances that he faced when leading this country in its infancy. Not to mention that this biography was published only fifty-nine years after Washington's death.0 of 0 people found the following review helpful. Good transaction book came quickly.By -Scott1st several chapters are informative, but not interest keeping. Harder to read because of the phraseology difference between 19th century vernacular and ours, but it starts to get easier the more I read. It's starting to get more interesting as I'm 1/2 way through the book..... the author is making the information a better read at this point by adding more thought into it rather than just throwing out facts and timelines.

Washington Irving's *Life of George Washington* (published in five volumes in 1856/59) was the product of his last years and remains his most personal work. Christened with the name of the great general, Irving was blessed by Washington while still a boy of seven, and later came to know many of the prominent figures of the Revolution. In these pages he describes them using firsthand source material and observation. The result is a book which is fascinating not only for its subject (the American Revolution), but also for how it reveals in illuminating detail the personality and humanity of a now remote, towering icon. Here is an intimate portrait of Washington the man, from Virginia youth to colonial commander to commander-in-chief of the patriot army to first president and great guiding force of the American federation. But one cannot read Irving's *Life* without marveling at the supreme art behind it, for his biography is foremost a work of literature. Charles Neider's abridgment and editing of Irving's long out-of-print classic has created a literary work comparable in importance and elegance to the original. *George Washington, A Biography*, Neider's title for his edition of Irving's *Life*, makes the work accessible to modern audiences. The extensive introduction provides a detailed analysis of Irving's life and times, and the difficulties he faced as he worked against his own failing health to finish what he felt was his masterpiece. This new edition of the superb biography of America's first citizen by America's first literary artist remains as fresh and unique today as when it was penned.

From the Back CoverWashington Irving's *Life Of George Washington* was the product of his last years and remains his most personal work. Christened with name of the great general, Irving was blessed by Washington while still a boy of seven, and later came to know many of the prominent figures of the Revolution.
