By Janna Our family has at least 4 other books from this series! Appropriate for kids of all ages. They're very informative engaging at the same time. We use them (for home schooling) as re-reads with our young children (ages 5-7) who can't yet read them independently. I can hardly wait to

read to them, myself! I'm learning new things about these inspiring men and women! I also recommend the biographies of Abraham Lincoln, Hudson Taylor, Eric Liddell, Gladys Aylward. Happy Reading!! 0 of 0 people found the following review helpful. Key Man in the Founding of America. By Ernest J. Boehr The Biography of George Washington showed how important he was in the founding of America. It was very interesting.

Written for ages 10 and up -- enjoyed by adults! Behind George were enemies; in front, a raging ice-packed river. Poling across had seemed his best chance, but now large blocks of ice slammed into his makeshift raft, twisting it off course. Just as George dug his pole in and pushed with all his might, a block of ice hit the raft -- the raft slammed into the pole -- and George was overboard. On a dangerous mission for the British army, young Major Washington had no idea that one day he would lead an army of fellow colonials in a bitter battle for independence against Great Britain herself, the most powerful empire in the world. In each new crisis, the young United States sought out George Washington. As commander in chief of the Continental army, chairman of the Constitutional Convention, and first president, this indispensable American served the struggling nation when its survival and form hung in the balance.
