Getting the Reformation wrong is a common problem. Most students of history know that Martin Luther nailed his ninety-five theses to the Wittenberg Church door and that John Calvin penned the Institutes of the Christian Religion. However, the Reformation did not unfold in the straightforward, monolithic fashion some may think. It was, in fact, quite a messy affair. Using the most current Reformation scholarship, James R. Payton exposes, challenges and corrects some common misrepresentations of the Reformation. *Getting the Reformation Wrong* places the Reformation in the context of medieval and Renaissance reform efforts, analyzes conflicts among the Reformers, corrects common misunderstandings of what the Reformers meant by sola fide and sola Scriptura, examines how the Anabaptist movement fits in with the magisterial Reformation, critiques the post-Reformational move to Protestant Scholasticism, and explores how the fresh perspective on the Reformation could make a difference in today's churches.
