Political ambition, corruption, greed lies (US Govt. cover up) exposed as Truth Knowledge after 140 yrs revealed!By LBWSince the content in Custer's Fall Ghost Dance came directly from my family Minneconjou tribal members both books exposed what really happend at the Battle of the Little Big Horn, finally the truth is revealed for western expansion at the expense of all who fought died needlessly over political ambition, corruption, greed. Miller took his time, 22 yrs to get the facts, truth, tragedy....as well as a 140 yr perpetuated lie about how Custer really died, refreshing after the Custer Massacre myth. The Lakota informants/survivors, so called hostile-dissentents by US govt, were brave to tell Miller the truth set the false narrative of the day to save face after Custer's defeat straight. Looking Back Woman/Suzanne Dupree's Wordpress release, Road to Redemption for the Tetons....has the Dept of Justice, Pentagon DC's BIA gettig their accurrate history lesson as the lies fall away to reality their false history gives way to Truth Knowledge.1 of 1 people found the following review helpful. The true Americanhistory with the American Indian and the white mans move west along with the American government and are policies at the time were really shameful. White men in power with no integrity. There is so much to say but all I can say is buy and read both of David's books and learn what really happed at the little big horn. I always new we were not told the true story and I agree with what

David has written. Facts from real eye witnesses. Ten Stars!!! on both books. 1 of 2 people found the following review helpful. This is the most well written book on Custer's battle ...By J. M. Verbois This is the most well written book on Custer's battle. There was a lot of people talked to on the Indian side for this story. Thank you.

From the Native American point of view, the 1890's were disaster after disaster. The buffalo, their mainstay was disappearing because of overkill and what few crops they did have failed. Wokova told the Lakota that if they danced and lived in their faith they would recover the lands taken by the white man. They reached deep into their faith and the second Ghost Dance appears. When the U.S. Government saw 25,000 participate in the dance they panicked and the Wounded Knee Massacre occurred. The author took the telling of this story very seriously and researched widely including interviewing many Ghost Dancers.
