**M. Laetitia Cairolì : Girls of the Factory: A Year with the Garment Workers of Morocco** before purchasing it in order to gage whether or not it would be worth my time, and all praised Girls of the Factory: A Year with the Garment Workers of Morocco:

In Morocco today, the idea of female laborers is generally frowned upon. Yet despite this, many women are beginning

to find work in factories. Laetitia Cairoli spent a year in the ancient city of Fes; *Girls of the Factory* tells the story of what life is like for working women. Forced to find a factory job herself so that she could speak more intimately with working women, she was able to learn firsthand why they work, what working means to them, and how important earning a wage is to their sense of self. Cairoli conveys a general sense of the working life of women in Morocco by describing daily life inside a Moroccan sewing factory. She also reveals the additional work they face inside their homes. More than an ethnography, this volume is also for those who want to better understand what life is like for a new generation of young women just entering the workforce.

About the Author M. Laetitia Cairoli is adjunct professor of anthropology at Montclair State University.
