expectations6 of 6 people found the following review helpful. Five BIG starsBy B. F. MooneyThis is, simply put, an excellent book, historical theology at its best. The scope is very wide, yet not at the cost of useful or thought-provoking depth on this topic - all the more remarkable in a book of 192 pages. If only more authors would think so clearly before beginning to write and remember the virtue of brevity!Capetz has a way of re-explaining or re-examining the familiar ideas and putting them into a fresh perspective grounded in history. He clearly shows how some tenets of Christianity about God began and evolved, and does so with a fine and subtle economy of language.A fine book, a pleasure to read and reflect on. I look forward to more from this talented author and thinker.

This brief tour through three thousand years of religious history shows how the Christian doctrine of God evolved in response to tensions within the insights of monotheism. The very personal, changeable, and involved God of the Hebrew Bible transformed decisively in its encounter with Greek metaphysical concepts and with the emerging trinitarian notions of the early Christian period. Capetz skillfully traces this history and shows how the tensions thus created are with us still.

About the AuthorPaul E. Capetz is Associate Professor of Historical Theology, United Theological Seminary of the Twin Cities. He is author of *Christian Faith as Religion: A Study in the Theologies of Calvin and Schleiermacher* (1998).
