From Routledge : Greek and Roman Networks in the Mediterranean before purchasing it in order to gage whether or not it would be worth my time, and all praised Greek and Roman Networks in the Mediterranean:

How useful is the concept of "network" for historical studies and the ancient world in particular? Using theoretical models of social network analysis, this book illuminates aspects of the economic, social, religious, and political history of the ancient Greek and Roman worlds. Bringing together some of the most active and prominent researchers in ancient history, this book moves beyond political institutions, ethnic, and geographical boundaries in order to observe

the ancient Mediterranean through a perspective of network interaction. It employs a wide range of approaches, and to examine relationships and interactions among various social entities in the Mediterranean. Chronologically, the book extends from the early Iron Age to the late Antique world, covering the Mediterranean between Antioch in the east to Massalia (Marseilles) in the west. This book was published as two special issues in *Mediterranean Historical Review*.

Overall the book succeeds in its stated aim of exploring the potential applications of addressing historical questions by thinking about networks and connectivity in different contexts and with different types of evidence. In this way, the flexibility and adaptability of the methodology has been successfully demonstrated, and readers interested in new approaches may find many of the papers of use. - Marlena Whiting

About the Author
Irak Malkin is Chair of the History department at Tel Aviv University and co-Editor of *Mediterranean Historical Review*.
