From Brand: Focus Publishing/R. Pullins Co. : Greek Religion: A Sourcebook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Greek Religion: A Sourcebook:

6 of 7 people found the following review helpful. Fantastic BookBy Kindle CustomerI can't believe how great this book is. It covers a multitude of topics dealing with Ancient Greek Religion and arranges all the topics in groups along with giving sources who commented about the topic. This book is extremely beneficial to anyone who is an actual practicing member of Hellenismos Reconstruction. It gives both the name of person quoted, date, source found and who translated the document or artifact. It covers religious life, festivals, marriage, death and oh so much more. Don't

lose a chance obtaining this book. I am so glad I added this book to my collection. HELLENISMOS TODAY AND FOREVER! 0 of 0 people found the following review helpful. Three Stars By Stewart E. Brekke Not comparable to Bukert's Greek Religion. 0 of 0 people found the following review helpful. Five Stars By Elizabeth Wilcox Great condition

Greek Religion: A Sourcebook provides an introduction to the fundamentals of ancient Greek religious beliefs and rituals through a rich collection of ancient source readings. The translations draw from the Focus Classical Library sources as well as new translations by the author and other outstanding scholars. Chapters cover such topics as ancient magic, mystery cults, divination, and festivals. Illustrated throughout with photos and maps, this book is designed as a companion to Valerie Warrior's Roman Religion: A Sourcebook.

Warrior's text fills a long-acknowledged void for teaching Ancient Religion. There is no real alternative. The best recommendation for her book comes from my students, who voted her Greek and Roman Sourcebooks their favorite texts in my Greek and Roman Religion course. Randall M. Colaizzi, Ph.D., University of Massachusetts, Boston This sourcebook sets a very high standard for its competitors to match in the area of Greek religion. Its approach of relying on the ancient sources to speak for themselves, with limited but helpful commentary, is effective and engaging in a way that a dry textbook presentation is not. Given its eminently reasonable price, the accessibility of the translations and the quality of the supporting commentary, anyone teaching a course offering involving the religious practices of ancient Greek civilization ought to consider adopting Greek Religion: a sourcebook. Benjamin W. Hicks, Rutgers, the State University of New Jersey (Bryn Mawr Classical 2009.08.59)
