Dr. Carroll does it again.By Eleonore VillarrubiaEvery book that I have ever read written by Dr. Warren Carroll makes history come alive - much more exciting than any fiction. His books are well-researched using much primary source material of the times. His writing is lively and exciting - spellbinding at times. For a true portrait of Queen Isabel and her times, this is the finest choice.5 of 5 people found the

following review helpful. Reads almost like a novel instead of a dry history book

I'm still not done with the book but I found out so much historical background with also very insightful personal data about this remarkable queen.

A very comprehensive and easy read about Spanish history. The author takes us briefly through the events that lead to Queen Isabel's coronation followed by her amazing feats whilst on the throne.

One of the most powerful and compelling figures of all history, Isabel of Spain was a force with which to be reckoned, and should rightfully eclipse the better-known Elizabeth of England, both as a woman and a national leader. The first full scholarly biography of Queen Isabel in English for nearly seventy-five years, Isabel of Spain is extensively annotated and eminently readable.
