better to understand a religion through how it's practiced by its adherents.0 of 0 people found the following review helpful. Four StarsBy Jennythis book was a great read!0 of 0 people found the following review helpful. Straightforward introduction to IslamBy Andy P.A somewhat dry but competent introduction to Islam; it's history, doctrines and practices. I think it's probably a good book to start with if you wanted to understand something about Islam beyond popular depictions of the faith and it's history. Ayoub writes in an academic style that delivers information, but won't affect your blood pressure

Combining the personal with the scholarly, this innovative introduction gives the reader an insight into Islam and its rich history.
