David Down : The Archaeology Book (Wonders of Creation) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Archaeology Book (Wonders of Creation):

Makes learning fun and easy with levels of study by color coding facts on the page...do I want all our material to be like this? Of course not, but it was a fun change, and made it easy to use for teaching my kids of different ages together. (For homeschoolers-we used it with MFW HOD curriculums). We are not done yet, so I say 4 stars. 0 of 0 people found the following review helpful. Five Stars By Alan M. Leon Great gift 0 of 0 people found the following review helpful.
