As a new convert I found so many interesting ideas for teaching my young children about the Catholic faith and incorporating Catholic traditions in our lives. If you are a life long Catholic with a solid understanding of the Catholic faith and already have a rich tradition of celebrating your faith then this might not be in depth enough for you but it's an excellent guide for those

new to the faith or who had a more superficial connection to Catholicism and is looking for a way to deepen their Faith.0 of 0 people found the following review helpful. we both love the book and find it easy to read and ...By CustomerI bought for me adult daughter to help her to raise my two grand-kids in the Catholic faith, we both love the book and find it easy to read and understand through a kids view. With the same classroom-tested style that made our Big Book of Ideas for Children's Faith Formation so popular, this book shows you step-by-step how to make learning fun for children ages 3 to 8, and beyond. Your favorite characters from the first book return to lead us through Advent, Christmas, Lent, Easter, and a few secular holidays, too. Short stories, crafts, games, and traditional decorations remind them of the time-honored customs of the season. Prayers and devotions -- some new, some traditional -- keep all the fun centered on faith, and might just become lifetime habits. If you teach in Catholic schools or CCD classes, you'll wonder how you ever got along without this book. If you're a homeschooler, this is just the help you've been looking for. If you're a parent or grandparent looking for some rainy-day fun, here's fun you can feel good about.
