**From The University of North Carolina Press : The Black Abolitionist Papers: Vol. V: The United States, 1859-1865** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Black Abolitionist Papers: Vol. V: The United States, 1859-1865:

This five-volume documentary collection--culled from an international archival search that turned up over 14,000

letters, speeches, pamphlets, essays, and newspaper editorials--reveals how black abolitionists represented the core of the antislavery movement. While the first two volumes consider black abolitionists in the British Isles and Canada (the home of some 60,000 black Americans on the eve of the Civil War), the remaining volumes examine the activities and opinions of black abolitionists in the United States from 1830 until the end of the Civil War. In particular, these volumes focus on their reactions to African colonization and the idea of gradual emancipation, the Fugitive Slave Law, and the promise brought by emancipation during the war.

"The Black Abolitionist Papers" represents one of the foremost examples of the art of documentary editing."Southern Historian" The Black Abolitionist Papers represents one of the foremost examples of the art of documentary editing, and makes accessible rare sources otherwise unavailable to most scholars.--Southern HistorianA magnificent achievement.--Journal of the Early RepublicAbout the AuthorC. Peter Ripley, professor of history and black studies at The Florida State University, is editor of the Witness for Freedom: African American Voices on Race, Slavery, and Emancipation and author of Slaves and Freedmen in Civil War Louisiana.
