From Brill : The Book of Daniel: Composition and Reception (Volume II) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of Daniel: Composition and Reception (Volume II):

0 of 10 people found the following review helpful. The author disputes the inerrancy of the Book of Daniel ...By Mark EllisThe author disputes the inerrancy of the Book of Daniel which would make it an apocryphal book; not worthy to be part of the canon. I find that erroneous and hence this book is not worthy of exploring and elucidating the history,

nuances and theology of Daniel. 0 of 0 people found the following review helpful. Composition and Reception' is another excellent write-up by distinguished scholar John Collins et al. By Dan R. 'The Book of Daniel: Composition and Reception' is another excellent write-up by distinguished scholar John Collins et al. The meticulous analysis of Daniel is both readable and comprehensive. Anyone who wants to gain scholarly insights into the Book of Daniel should definitely add this book to their collection.

Even though the earlier debates of the twentieth century have subsided, questions concerning the composition and genre of Daniel, the social setting of the work, its literary context, and its theology persist. Because of the Dead Sea Scrolls discoveries and advances in understanding the history of transmission, Daniel has found a new generation of scholars interested in its place in the Jewish and Christian scriptures. Collins and Flint have assembled a stellar international team to review the state of Danielic studies and the hot issues surrounding them. Of the thirty-two essays, only one has previously appeared. Articles on Second Temple Judaism, theology, apocalypticism, and the New Testament afford the foundational resources scholars require for doing their own detailed analysis. "Book of Daniel, Composition and Reception Vol. 1 Vol. 2" are also available as set (ISBN 978 0 391 04137 0) This publication has also been published in hardback, please click here for details.

"This is a valuable collection of essays on a wide variety of aspects of the study of the Book of Daniel. ... Scholars and more advanced students with a particular interest in the Book of Daniel will find it an important resource book." Ernest Lucas, "Ashland Theological Journal," 2003. "This is a valuable collection of essays on a wide variety of aspects of the study of the Book of Daniel. ... Scholars and more advanced students with a particular interest in the Book of Daniel will find it an important resource book." Ernest Lucas, Ashland Theological Journal, 2003. About the Author John J. Collins is Holmes Professor of Old Testament at Yale University. He has published widely on apocalypticism and Hellenistic Judaism. Peter W. Flint is Associate Professor of Biblical Studies at Trinity Western University in Canada. He has published widely on the Dead Sea Scrolls, the Psalms, and the Septuagint.
