The writer has documented history throughout this book and brought it all to life. Magnificent and horrible!!1 of 1 people found the following review helpful. Not as good as I expectedBy

Librarian Janet For every person's story, Cohn provides copious amounts of background information on the location, the history, and how Jews were treated in the region in the past few centuries. I realize this is done in order to place each story in the proper context, but I ended up skimming most of it. Even the stories themselves lost a lot of the immediacy for me because they are filtered through Cohn. There seemed to be very few direct quotes (that I could see at least). Add in the numerous grammatical errors and typos, and odd turns of phrase, and this was not as good a book as I was expecting it to be. 4 of 4 people found the following review helpful. Heartbreaker By Bob M Cohn is a good listener and she had collected a series of true life episodes from the real history lived by her subjects, the Holocaust survivors. It is important to read these stories and to know that these horrible things happened and the people who lived to tell about it should be heard. History is tough and this collection of real survivor stories reminds us not to ever forget what people can do to other people. Read this book and tell others to read it and take it very seriously.

Each chapter within *The Boy in the Suitcase* tells a different story of families throughout the world who have been affected by the Holocaust. This book also covers the trauma of second generation children of Holocaust survivors. Intelligence, courage, and the will to survive permeate each remarkable chapter.

It is important to continue to tell the stories of those brutally humiliated, tortured, and murdered during the Holocaust. . . . This book ensures that the innocent victims will no longer remain anonymous in their deaths. As the Maggid of her ancestral Dubno before her, Sheryl tells unique and inspirational stories in her book. In doing so, she honors the memory of the brave resistors, rescuers, and especially the families whose ultimate revenge is their continuance today. (Zvi Bielski, son of Zus Bielski of the Bielski Brothers Brigade) I am breathless! I had my family read our chapter and we are overwhelmed. Thank you for doing this and for asking me to take part. This book is a legacy that I would be proud to leave my children. (Shirley, second generation daughter of survivors) I just have to tell you how much I admire Sheryl's intellectual curiosity, talent, appreciation for heritage and history, determination, and energy.
