**David McLaughlin, Rubn Mendoza : The California Missions Source Book: Key Information, Dramatic Images, and Fascinating Anecdotes Covering All 21 Missions (Essential Facts at a Glance)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The California Missions Source Book: Key Information, Dramatic Images, and Fascinating Anecdotes Covering All 21 Missions (Essential Facts at a Glance):

4 of 4 people found the following review helpful. Printing issuesBy CaliI like this book. The information on all the missions of California is complete. I was disappointed in some of the printing on the pages. The were double printed and blurry pages in a few spots.It was a christmas present and the recipient would not let me return it for a replacement copy otherwise I would have requested another print.2 of 2 people found the following review helpful. Helpful resource for anyone interested in CA Missions.By Vickie BanksI was happy to receive my copy of the CA Missions Source Book prior to visiting some of the beautiful CA missions. Each mission is so unique, and there is so much so learn. It helps to have a guide along. Thanks!0 of 0 people found the following review helpful. Picture BookBy Cheap FrillsThis is a well-laid out book detailing the California missions. Great line drawings, representation, and photos of

all the missions.

The California Missions Source Book, first released in late 2009, has been acclaimed as the definite reference book on the California missions, a compelling visual delight, your money's worth of primary data. This expanded 2nd edition now includes the key facts about the only mission-era asistencia (sub-mission) which remains intact and continues to serve the descendants of its original Indian community. The second edition has been published in a hard cover, spiral-bound format that makes it extra sturdy for use by scholars in the field, as well for mission docents and visitors. This is a valuable resource with a beautiful presentation.
