**Douglas Reed : The Controversy of Zion** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Controversy of Zion:

8 of 8 people found the following review helpful. The truth can hurtBy SteppAs I write this I am only 3/4th done with the book.... But having read many books about the NWO and Zion, I must say this book is a MUST READ. The shock and the horror that you get over our so called Goy leaders under the knife of Zion is a shock.... Even when you know this truth of our world. Every person in office in the Western States should be sent this book to read - that could change quite a lot... May God save us from this evil...9 of 9 people found the following review helpful. Best book I've read for history accuracyBy JoyceThis book should be a required reading for anyone who is trying to make sense of what is happening in our world today, along with bringing one an understaning of the old, old, decades old war that is

being fought, even today. 0 of 0 people found the following review helpful. The Supernatural Origins of Judaic Elitism By Paul V. McDowell An interesting interpretation of Judaism and an explanation of how God became interpreted as a supernatural fascist with the original Judaic notion of the An interesting take on how the original Judaic tradition set the framework for both the notion of the Aryan as "chosen people" arose in Hitler's Germany and how the Book of Deuteronomy became a supernatural Mein Kampf. It gives a clear understanding of Israeli fascism under Netanyahu. c

Ever controversial, Douglas Reed delves into the sinister forces behind world unrest and revolution. The Controversy of Zion, can speak for itself; indeed, it is a work of revisionist history and religious exposition the central message of which is revealed in almost every page, understanding and compassionate of people but severely critical of the inordinate and dangerous ambitions of their leaders.

About the Author The disappearance into almost total oblivion of Douglas Reed and all his works was a change that could not have been wrought by time alone; indeed, the correctness of his interpretation of the unfolding history of the times found some confirmation in what happened to him when at the height of his powers. After 1951, with the publication of Far and Wide, in which he set the history of the United States of America into the context of all he had learned in Europe of the politics of the world, Reed found himself banished from the bookstands, all publishers doors closed to him, and those books already published liable to be withdrawn from library shelves and lost, never to be replaced. His public career as a writer now apparently at an end, Reed was at last free to undertake a great task for which all that had gone before was but a kind of preparation and education that no university could provide and which only the fortunate and gifted few could fully use - his years as a foreign correspondent, his travels in Europe and America, his conversations and contacts with the great political leaders of his day, plus his eager absorption through reading and observation of all that was best in European culture. Experiences which other men might have accepted as defeat, served only to focus Douglas Reeds powers on what was to be his most important undertaking - that of researching and retelling the story of the last 2000 years and more in such a way as to render intelligible much of modern history which for the masses remains in our time steeped in darkness and closely guarded by the terrors of an invisible system of censorship.
