people found the following review helpful. Buy this bookBy NinaIf you buy no other book about the revolution - buy this book. The author lays out all the key players, explaining not only who they were but their personal stories. This gives a much better understanding of what took place and why. It reads like a suspense novel only it's all true.

A marvelous two-volume set by one of America's premier historians, including the Pulitzer Prize-winning *Washington's Crossing* and the lavishly illustrated *Liberty and Freedom*, an insightful look at two ideas that have had a dramatic impact on our nation's history.
