Wim Klooster : The Dutch Moment: War, Trade, and Settlement in the Seventeenth-Century Atlantic World before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dutch Moment:

War, Trade, and Settlement in the Seventeenth-Century Atlantic World:

In *The Dutch Moment*, Wim Klooster shows how the Dutch built and eventually lost an Atlantic empire that stretched from the homeland in the United Provinces to the Hudson River and from Brazil and the Caribbean to the African Gold Coast. The fleets and armies that fought for the Dutch in the decades-long war against Spain included numerous foreigners, largely drawn from countries in northwestern Europe. Likewise, many settlers of Dutch colonies were born in other parts of Europe or the New World. The Dutch would not have been able to achieve military victories without the native alliances they carefully cultivated. Indeed, the Dutch Atlantic was quintessentially interimperial, multinational, and multiracial. At the same time, it was an empire entirely designed to benefit the United Provinces. The pivotal colony in the Dutch Atlantic was Brazil, half of which was conquered by the Dutch West India Company. Its brief lifespan notwithstanding, Dutch Brazil (1630-1654) had a lasting impact on the Atlantic world. The scope of Dutch warfare in Brazil is hard to overestimate; this was the largest interimperial conflict of the seventeenth-century Atlantic. Brazil launched the Dutch into the transatlantic slave trade, a business they soon dominated. At the same time, Dutch Brazil paved the way for a Jewish life in freedom in the Americas after the first American synagogues opened their doors in Recife. In the end, the entire colony eventually reverted to Portuguese rule, in part because Dutch soldiers, plagued by perennial poverty, famine, and misery, refused to take up arms. As they did elsewhere, the Dutch lost a crucial colony because of the empire's systematic neglect of the very soldiers on whom its defenses rested. After the loss of Brazil and, ten years later, New Netherland, the Dutch scaled back their political ambitions in the Atlantic world. Their American colonies barely survived wars with England and France. As the imperial dimension waned, the interimperial dimension gained strength. Dutch commerce with residents of foreign empires thrived in a process of constant adaptation to foreign settlers' needs and mercantilist obstacles.
