Jeff Sharlet : The Family: The Secret Fundamentalism at the Heart of American Power before purchasing it in order to gage whether or not it would be worth my time, and all praised The Family: The Secret Fundamentalism at the Heart of American Power:

7 of 7 people found the following review helpful. This is a must read for anyone who wants to understand politics in D.C. By Karen Chun The number of influential members of the "Family" or the "Fellowship" or the "C Street Family"

will blow your mind. Not only the conservatives you'd expect like Sam Brownback, Sen Don Nickles (R-Oklahoma), Sen Charles Grassley (R-Iowa), Sen Pete Domenici (R-New Mexico), scandal-ridden Sen John Ensign (R-Nevada), Sen James Inhofe (R-Oklahoma), Sen Bill Nelson (D-Florida) and Sen Bill Nelson (D-Florida), as well as Reps. Jim DeMint (R-South Carolina), Frank Wolf (R-Virginia.), Joseph Pitts (R Pennsylvania), Zach Wamp (R-Tennessee) and Bart Stupak (D-Michigan). What you might not know is that according to Mother Jones (in an article co-written by Sharlott) but Hilary Clinton is also a member of this group. Also read Sharlott's "C Street: The Fundamentalist Threat to American Democracy" for more on this. Sharlott is a top-notch investigative reporter and what he found out will chill you. 5 of 5 people found the following review helpful. Chilling, gripping, and all too real. By James Osiris Jeff Sharlet did a very interesting thing by slipping himself into this world. I am only glad that he wasn't drawn into it - the cultish mentality is very easy to assume. This is an incredible expose of one of the organizations in America who poses a genuine threat to democracy and personal freedom, all under the guise of 'religious liberty' - religion meaning 'Christianity' and 'liberty' meaning 'conformation to an unrealistic theocratic ideology'. The Family and other related fundamentalist religious and ideological organizations are more real and terrifying than any 'Illuminati' that conspiracy theorists could dream of. 3 of 3 people found the following review helpful. Excellent first-hand, hands-on research into one of the most ... By John J. Blossom Excellent first-hand, hands-on research into one of the most powerful and influential organizations in U.S. politics. Is "Jesus plus nothing" religion, or is it simply unquestioned obedience to the powerful? The book gets a bit weaker in its later chapters, but the core of the book is spellbinding and very revealing.

They insist they are just a group of friends, yet they funnel millions of dollars through tax-free corporations. They claim to disdain politics, but congressmen of both parties describe them as the most influential religious organization in Washington. They say they are not Christians, but simply believers. Behind the scenes at every National Prayer Breakfast since 1953 has been the Family, an elite network dedicated to a religion of power for the powerful. Their goal is "Jesus plus nothing." Their method is backroom diplomacy. The Family is the startling story of how their faith part free-market fundamentalism, part imperial ambition has come to be interwoven with the affairs of nations around the world.

From Publishers Weekly Checking in on a friend's brother at Ivenwald, a Washington-based fundamentalist group living communally in Arlington, Va., religion and journalism scholar Sharlet finds a sect whose members refer to Manhattan's Ground Zero as "the ruins of secularism"; intrigued, Sharlet accepts on a whim an invitation to stay at Ivenwald. He's shocked to find himself in the stronghold of a widespread "invisible" network, organized into cells much like Ivenwald, and populated by elite, politically ambitious fundamentalists; Sharlet is present when a leader tells a dozen men living there, "You guys are here to learn how to rule the world." As it turns out, the Family was established in 1935 to oppose FDR's New Deal and the spread of trade unions; since then, it has organized well-attended weekly prayer meetings for members of Congress and annual National Prayer Breakfasts attended by every president since Eisenhower. Further, the Family's international reach ("almost impossible to overstate") has "forged relationships between the U.S. government and some of the most oppressive regimes in the world." In the years since his first encounter, Sharlet has done extensive research, and his thorough account of the Family's life and times is a chilling expose. Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. One of the most compelling and brilliantly researched exposes you'll ever read just don't read it alone at night! (Barbara Ehrenreich, New York Times bestselling author of Nickel and Dimed and Bait and Switch) Of all the important studies of the American right, THE FAMILY is undoubtedly the most eloquent. It is also quite possibly the most terrifying. (Thomas Frank, New York Times bestselling author of What's the Matter with Kansas?) An astounding entre to a fascinating Christian network unknown to most Americans. . . . A must-read for any American who wants to know who is actually pulling the strings at the highest levels of power. (Heidi Ewing, co-director Jesus Camp) This is a gripping, utterly original narrative about an influential evangelical elite that few Americans even know exists. . . . The Christian Right will never look the same again. (Michael Kazin, author of A Godly Hero: the Life of William Jennings Bryan and The Populist Persuasion: An American History) [Sharlet] has managed to infiltrate the most influential and secretive fundamentalist network in America, and ground his reporting in the most astute and original explanation of fundamentalism I've ever read. . . . Indispensable. (Hanna Rosin, former religion reporter for the Washington Post and author of God's Harvard: A Christian College on a Mission to Save the Nation) I was once an insider's insider within fundamentalism. Unequivocally: Sharlet knows what he's talking about. . . . Those who want to be un-deceived (and wildly entertained) must read this disturbing tour de force. (Frank Schaeffer, author of Crazy For God: How I Grew Up As One Of The Elect, Helped Found The Religious Right, And Lived To Take All (Or Almost All) Of It Back) Un-American theocrats can only fool patriotic American democrats when there aren't critics like Jeff Sharlet around careful scholars and soulful writers who understand both the majesty of faith and the evil of its abuses. A remarkable accomplishment in the annals of writing about religion. (Rick Perlstein, author of Nixonland: The Rise of a President and the Fracturing of America) Jeff Sharlet provides a fascinating account of how part of American Christianity has gone off on a dangerous tangent. It should worry everyone maybe especially those of us who understand the Gospels to

be a call to help the powerless, not prop up the powerful. (Bill McKibben, author of *The End of Nature* and *The Bill McKibben Reader*) Jeff Sharlet is one of the very best writers covering the politics of religion. Brilliantly reported and filled with wonderful anecdotes, *THE FAMILY* tells the story of an influential group that you haven't previously heard of, and need to know about. (Ken Silverstein, Washington editor of *Harper's* and author of *The Radioactive Boy Scout*) A brilliant marriage of investigative journalism and history, an unsettling story of how this small but powerful group shaped the faith of the nation in the 20th century and drives the politics of empire in the 21st. Anyone interested in circles of power will love this book. (Debby Applegate, author of the Pulitzer Prize-winning *The Most Famous Man in America: The Biography of Henry Ward Beecher*)

About the Author Jeff Sharlet is a visiting research scholar at New York University's Center for Religion and Media. He is a contributing editor for *Harper's* and *Rolling Stone*, the coauthor, with Peter Manseau, of *Killing the Buddha*, and the editor of *The Revealer.org*. He lives in Brooklyn, New York.
