Don Landis, with Jackson Hole Bible College : The Genius of Ancient Man before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Genius of Ancient Man:

0 of 0 people found the following review helpful. I enjoyed reading this book By R Marc Lots of illustrations. Great book for a school kid you want to teach that men were not primitive running around saying 'unga unga.' Yup ancient men were intelligent just look at what they left behind. This author believes men were created intelligently by God before the flood. Many evidences were left and this book writes about pre and post flood technology left by ancient men. Has lots of pictures. I stay away from books telling us that aliens visited Earth or we came from a rock and time like a billion years made us where we are now. Nope that s not want i want to teach my kids. I want my kids to know we have a Creator who in Psalm states we are 'fearfully and wonderfully made'. Even though i say it s for a school kid. I enjoyed reading it immensely. Packed w lots of info . Am grateful for Don Landis for making this book. 0 of 0 people found the following review helpful. Amazing Facts and Truth for Everyone By Doobie Nice Amazing and jaw dropping

facts. This is truly a great research book to have and to hold. It has been made with the utmost diligent and careful writing. Beautiful and thought provoking images add a dimension of color and understanding. I'm so happy I purchased this as an educated adult or a child of elementary school the wonders of this book will keep any age interested for years to come. 3 of 4 people found the following review helpful. Ancient Man Was A Lot Smarter than You Might Think! By Bob Shepherd BAM! The first book I ever read that "smacked" me right between the eyes. I loved it! Filled with fascinating facts about ancient man that will make the most skeptical reader wonder about the intelligence, technology, and amazing accomplishments of ancient civilizations. So you think modern man is more intelligent than his ancient counterparts? Think again! What we champion as some of the latest discoveries in technology, ancient man already knew about and applied it to his architecture, agricultural crops, septic and water systems, musical instruments, and even forged manufacturing processes. Read this book and you will never think of ancient man as an intellectually-inept brute again. What you DON'T know CAN hurt you... academically and truthfully.

Evidences and commonalities explored from ancient man around the globe! Why structures echoing the Tower of Babel have been recreated on almost every continent and major culture What artifacts and archaeology, technology and innovation, really reveal about the origin of mankind Why many biblical symbols (rainbows, human sacrifice, mountains, the Son/ sun worship) were, and continue to be, distorted in pagan religious practices What the historical record reveals about Satans counterfeit of Gods plan for humanity All over the world there are similar findings of ancient religions, cities and towers, world travel, advanced astronomy, and civilized government. Over the course of two years, a team of researchers from Jackson Hole Bible College has worked to bring together the different pieces of the convoluted mystery and history of ancient man. Hours of researching, trips to various sites around North and Central America, visits to museums, and meetings with experts have provided the team with an overwhelming amount of evidence for the intelligence of these early innovators. A jumble of anomalies and magnificent structures continue to confound archaeology and anthropology today, yet as the dots are connected, one finds history as described in the biblical record.

About the Author Don Landis is the president of Jackson Hole Bible College in Jackson, Wyoming. He is also Sr. Pastor at Community Bible Church in Jackson and Chairman of the Board for Answers in Genesis. He is the chief editor for The Genius of Ancient Man and worked closely alongside many students from Jackson Hole Bible College who also contributed to its completion.
