**Walter Williams : The Historical Origin of Christianity** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Historical Origin of Christianity:

20 of 20 people found the following review helpful. Truly Amazing Research By Andre Parker My whole being is changed forever, I give the Highest form of Appreciation/Gratitude and Respect to Mr. Walter Williams for writing this book. Not only, did he Not, do the research for himself, but he did it for " All Black People". For me to have my

own concerns about where/how Christianity got started, this book gives you all the answers you'll ever need and more. It leaves you with a sound and confident feeling of what Empowerment really means. After reading it, I am now better informed than I ever have been, on how religion works and the power/control it has over "All People in our society". Do your research. Ma'at Hotep!!! 8 of 8 people found the following review helpful. Faith Based Scholarship? No Sir, Not Walter Williams By Rich DI was surprised how well this book is sourced referenced and organized. Very easy to read and straight forward. Recommended for those who want an idea of the History of Christianity and how JC was "created creature" and surrounding political arguments of the day. 5 of 5 people found the following review helpful. It's very good and giving some things that you can actually research ... By Herukhuti This is a basic and straight to the point book about the true origins of Christianity. It's very good and giving some things that you can actually research outside of this book yourself to show yourself approved.

During the past 20 years my life's commitment has been to researching and finding out all that i could to ressurect the Ancient Egyptian consciousness among my people. We have gone from Africans/slaves, to Colored, to Negroes, to Blacks and now to African-Americans.

"it was a good book." --Saul Rodriguez
